

# creative coffee

"artistry in a cup!"

8/03/11

**Cre8tive Coffee** is 100% Australian owned company. Our main business is roasting and supply of coffee to cafe's, restaurants and offices throughout Australasia.

We use only the highest quality Arabica Coffee Beans from the equatorial region including Central & Southern America, the African continent, and Asia, for all of our varietal and blended coffees.

We believe that our coffee is as good as anything you will find anywhere in the world. We are not distributors, we manufacture the product and coffee is our passion. We pride ourselves in providing the highest standard of service, support and in-house training to our customers.

We are your one stop shop for all your coffee and tea related products and when you order over the internet, **free delivery to your door anywhere on the Gold Coast!**\*

**We roast on demand to ensure freshness, therefore we request that orders be provided 24hours before required.**

**CC-1 South American & African Blend**

**250g \$11.50 500g \$19.00 1kg \$29.50**

We use four high grown A-Grade Arabica coffee's to produce a blend that provides a great complex flavour. A delicate sweet finish with hints of dark chocolate and walnut. Our most popular blend for cafe's where the sweetness enhances Cappuccino's & Cafe Lattes. For home espresso you need a good quality machine & grinder to capture the sweetness, this is also an excellent plunge and filter coffee.

**CC-2 Italian Style Blend**

**250g \$11.50 500g \$19.00 1kg \$29.50**

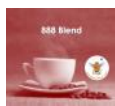

A reasonably dark roast, multi-stage, blended post roasting and incorporating a small percentage of high quality robusta. It has strong body, hints of berry and a great "zing" that cuts through milk based coffee's. This is a sensational single short black, and one of the few where a small half dose of sugar actually complements the espresso.

**CC-3 Rainforest Smooth Blend**

**250g \$11.90 500g \$20.50 1kg \$31.50**

Our Rainforest Alliance blend is a very high quality blend with a creamy flavour, good body, and a smooth clean finish with a hint of fruit but not too acidic. We use three A-Grade Central American coffees that perfectly complement each other. This is a superb cup of coffee, and one of the smoothest double ristretto's you'll ever try. It is also good as a home plunge or filter coffee, and an excellent afternoon espresso pick me up.

**888 Blend**

**500g \$21.50 1kg \$32.50**

We use four of the world's best Arabica coffees together with our multi-stage roasting process to develop a truly excellent specialty espresso coffee. Rich in flavour, with a hint of chocolate and a finish of fine citrus sweetness. Complex and intriguing, you almost find something different each time. Our top coffee for dedicated espresso drinkers.

**CC-D Decaffeinated Central American**

**250g \$12.95 500g \$22.00 1kg \$39.90**

Our beans are decaffeinated using the patented chemical free Swiss Water Process. This process uses purified water and special caffeine filters to remove the caffeine without damaging the coffee flavour or leaving harmful solvents. We use an organic bean when available, and when roasted and brewed correctly it is hard to distinguish from "real" coffee.

Alchemy Syrups are the perfect accompaniment with coffee. 750ml bottles.

Available flavors: Vanilla, Caramel, Hazelnut, Butterscotch, White chocolate, Chocolate, Irish Cream **\$15.50**

We also stock a wide variety of loose leaf & traditional tea bags from Madura Tea.

From **\$2.50**
